**STATUS REPORT REGARDING THE DEFENDANT'S
ACCESS TO DISCOVERY MATERIALS**

On November 3, 2014, the Court ordered that within 7 days, the government communicate with the Essex County Correctional Facility in Middleton, Massachusetts, and the United States Marshals Service to determine (1) whether there is, in fact, some limitation on the defendant's access to the thumb drive containing his discovery materials; and (2) if there is such a limitation, how to resolve it such that the defendant can freely access those discovery materials in preparation for trial.

On November 4, 2014, the government was informed that the defendant would be given free access to his discovery materials if those materials are placed on a CD or DVD disc. The parties are presently working on transferring that discovery material from a thumb drive to a DVD disc, at which time the defendant will be able to freely access those materials. If any further complications arise that require the Court's intervention, the government will immediately provide notice to the Court, and specifically identify the necessary relief.

Respectfully submitted,

JOHN P. KACAVAS
United States Attorney
